Transport Canada CAR 621.19

Shown with SB3 Mounting Base

Application:

Farlight's LED obstruction lights combine the cost-saving benefits of LEDs with advanced technology to ensure reliable operation in all environments. The L810LED-100CD is FAA and ICAO compliant, while also meeting the higher light intensity requirements specified in jurisdictions including Australia and Canada. The light engine is designed to retrofit onto existing incandescent fixtures and it provides years of reliable and maintenance-free operation. All Farlight obstruction lights come with a 5 year warranty.

FEATURES

- **Direct retrofit replacement for existing incandescent light**
- **No regular maintenance -- lasts up to 20 times longer than incandescent lights**
- **Uses 96% less power than an incandescent light**
- **5-watts (DC), 5-watts (AC) power consumption**
- **Aluminum and glass body -- no plastic**
- **Integrated Surge Protection**
- **Available in single and dual configurations with bottom or side conduit outlets**
- **Can be operated in flash or steady-burn mode (controller supplied separately)**
- **Resistant to corrosion, shock and vibration**
- **Operates from -55°C to +55°C**
- **5 year warranty**

ORDERING INFORMATION

ITEM	FARLIGHT PART NUMBER	PART DESCRIPTION
1	L810-DC	LOW INTENSITY 12-48V DC
2	L810-DC-NVG	LOW INTENSITY NVG 12-48V
3	L810-AC	LOW INTENSITY 240V AC
4	L810-AC-NVG	LOW INTENSITY NVG 240V AC
5	SB3	SINGLE MOUNT 3/4
6	DB3	DOUBLE MOUNT 3/4
